Professional Summary

Aspiring Software Engineer passionate about software development, web technologies, Java, Python, and Artificial Intelligence. Recently completed a Bachelor's degree in Electronics and Communication Engineering from Nandha Engineering College (Autonomous), with hands-on experience in web development, embedded systems, IoT, and AI-based projects. Passionate about building scalable applications, solving real-world problems, and continuously learning modern technologies.

Education

B.E. Electronics and Communication Engineering 2022-2026

Nandha Engineering College (Autonomous), Erode

CGPA: 8.78

Graduated: 2026

Honors Diploma in Computer Programming 2021 - 2022

Overall Grade : A

SVN Matric Higher Secondary School, Erode Jun 2022

HSC – 70.8%

SVN Matric Higher Secondary School, Erode Jun 2020

SSLC – 98.2%

Technical Tools

- **Development Tools:** Jupyter Notebook, Arduino IDE, Visual Studio, Android Studio
- **Database:** MySQL
- **AI Productivity Tools:** ChatGPT, Claude AI, Gemini
- **AI App Builders:** Lovable AI, Appliflix
- **Design & UI Tools:** Canva, Framer AI

Projects

Academic CGPA/GPA Calculator

- Developed a web application for department-wise and common GPA / CGPA calculation.

PrimeFit – Offline Fitness App

- Developed a fully offline fitness mobile application with AI-assisted development using Lovable AI and Appliflix.

Facial Expression Recognition Using OpenCV

- Built a real-time facial emotion detection system using Python and OpenCV.

ACADEMIC PROJECTS

Dual Authentication-Based Attendance System

- Developed an RFID and R307 fingerprint-based attendance system.

Patent Published: Application No. 202541072283 (2025).

Smart GSM-Free Fire Alert & Monitoring System

- Designed a GSM-based fire alert system for real-time emergency notifications.

Published in: AIP Conference Proceedings

MINI PROJECTS in OpenCV

Moving Object Detection

- Developed a real-time moving object detection system using OpenCV.

Mobile Camera-Based Emotion Detection

- Integrated IP Webcam with OpenCV for real-time emotion detection.

Technical Skills

- **Programming Languages:** Java, Python(Basic).
- **Web Technologies:** HTML5, CSS3, JavaScript.
- **Database:** SQL
- **Version Control:** Git, GitHub.

Soft Skills

- Leadership & Team Coordination
- Decision Making
- Time Management
- Quick Learner

Positions of Responsibility

- Department Secretary (2026 - Present)
- Class Representative of 2nd Year – 3rd Year (2023 – 2025)
- Yoga Student Coordinator – College Level Year (2024 – 2025)

Certifications

- Introduction to IoT in NPTEL (Elite + Silver)
- Cloud Computing (Elite)
- Java Programming Fundamentals in Infosys SpringBoard
- Basics of Python in Infosys SpringBoard

Inplant - Training & Internship

NPCIL, Kudankulam Nuclear Power Project

1 & 2

May 2025

- 14-days training in the Control Maintenance Unit, gaining exposure to nuclear plant instrumentation, control systems, and maintenance operations.

Zeekers Technology Solutions Pvt Ltd

Jan 2025

- Gained hands-on experience in Embedded IoT, PCB design, and PCB fabrication during a 2-weeks industry internship.

Zeekers Technology Solutions

Feb 2024

- Gained hands-on exposure to Embedded Systems and Sensor Integration during a 7-days inplant training.
